## Population

A region's economy thrives or dives because of the people who choose to live there. That choice may occur by being born there and desiring to stay, or a more deliberate one of choosing to relocate from somewhere else. Monitoring change in the size and movement of population is an important barometer of well-being. Some of us monitor these changes as an insect might gauge the shifting sands while most don't pay much attention. But the barometer is a good metaphor for population change since it can presage more notable events, such as lackluster business attraction due to lack of workers.

Population Over Time					
	1988	1993	1998	2003	2008
Total Population	27,051	28,725	31,447	33,542	33,368
Change Since 1988		1,674	4,396	6,491	6,317
Pct. Change Since 1988		6.2%	16.3%	24.0%	23.4%

## Components of Population Change 2007 to 2008

	Number
Net Domestic Migration	-147
International Migration	17
Natural Increase (births minus deaths)	145
Births	416
Deaths	271

A bar chart titled "Components of Change" showing the breakdown of population change from 2007 to 2008. The x-axis lists the components: Domestic Migration, International Migration, and Natural Increase. The y-axis represents the number of people (from -200 to 200). Domestic Migration is a negative value (-147), International Migration is a small positive value (17), and Natural Increase is a positive value (145).

Component	Number
Domestic Migration	-147
International Migration	17
Natural Increase	145
